Heating Up In The Top 3!

Hello All;

Hi everyone, and welcome to the dog days of August. The summer finish line is still quite out of sight and obscured by the heat, I suppose. Hope you have some cool things planned for this next month, that include massive amounts of air conditioning and some sweet tea!

Speaking of libations, let's raise a glass! Ooo-wee, we have us a horse race this week! Congrats to Pat Green on his #1, Aaron Watson is at #2, and Cody Johnson at #3, but all these songs are only separated from one another by single digit spin counts! Aaron Watson has had a great run, having been in the #1 position since we started publishing the chart a month ago, so Pat Green is only the second person to claim the #1 position. Also congrats go out to Whiskey Myers for their upward move this week, and Troy Cartwright for most added.

We have some station changes to tell you about. KBIM Roswell, NM has respectfully declined to be part of the panel, and KTFW in Ft. Worth will join the panel as of next week's chart. Reach out to Mike Crow at crowman@921hankfm.com to congratulate him.

We continue to create pathways to make things easier, and have a dedicated Hightail account <https://spaces.hightail.com/uplink/tractiontx> that you can use to upload your MP3s for tracking purposes. Now to upload your art assets including .wav for a CDX TRACtion Texas Instatrack delivery to T/RD Radio and beyond, go to: <http://www.tractiontx.com/upload-center/>. Each Instatrack delivery comes with a dedicated email blast that goes to 1100 radio folks which now includes CMA Member International Stations.

Onward and upward. Remember to keep the photos, station events, and especially the music coming our way.

Looking forward,
Jessie Scott

jessiescott@cdxcd.com

Chart Recurrent Methodology

When does a song move to recurrent on the chart? It is one of the more challenging issues we encountered in creating the CDX TRACtion Texas chart system. Rather than relying on subjective editorial decisions, we've chosen to automate this process using the weekly chart data as a marker.

We strive to avoid having singles past their prime create a logjam on the chart, because that stifles upward momentum for up-and-coming singles. But we also try to ensure that singles "on the bubble" are not removed prematurely. As long-time chart watchers know, singles often take a while to establish a solid base among early believers at radio before they truly find their legs. Due to any number of reasons, the path to peak chart position rarely includes straight-line, week-over-week spin and/or chart position growth.

On a monitored airplay chart like CDX TRACtion Texas, the reality is that new singles bounce around a bit spin-wise and position-wise, particularly in the lower half of the chart. Even small spin increases and decreases can be magnified as fairly significant up-or-down chart position moves.

With this in mind, the CDX TRACtion Texas recurrent policy grades each chart position on a curve, using an algorithm that considers the chart position and spin history for that song. Newly serviced singles are allowed 20 weeks to chart before being removed from chart consideration. Once a status change is actively being considered by the algorithm, the cumulative amount of spin loss from the single's previous peak spin count is the trigger. The allowable spin loss varies as a percentage, depending on the chart position.

In addition to making sure that only singles with significant downward movement become recurrent, this methodology also benefits slow-developing singles in several ways. For instance, the allowable spin loss (as a percentage) is very generous at the lower reaches of the chart to accommodate the lower spin counts. Additionally, if a single is at risk of being moved to recurrent status with two consecutive weeks of minor spin loss, it can still return to positive spin growth the following week, which will reset the clock.

Cory Morrow Presents Rock The Red Kettle

Sponsored by KOKE-FM | Featuring Cory Morrow and Friends (TBA)

At the LifeAustin Amphitheatre.

On Sunday, November 20, 7 to 10 PM.

Get your holidays started off right by getting in the giving spirit! Rock The Red Kettle ATX is kicking off the Red Kettle season with a night of music, food, fun & giving. Singer-songwriter, Cory Morrow will be joined onstage by some of his closest friends from the Texas music scene for an unforgettable music event.

“My wife and I prayed for God to show us where we could begin serving our community, and that’s when Bob Cole called inviting me to meet with The Salvation Army. One visit and I was hooked. The Salvation Army cares for the women and children and the homeless in this fine city by giving a hand up, not just a hand out. This is *‘religion that is pure and undefiled before God.’* (James 1:27). I am blessed to be associated with The Salvation Army.”

– Cory Morrow

“Cory Morrow said it best, *‘once any caring human being witnesses first-hand the struggle of women and children who are homeless, there is no way you can walk away.’* Not only does Austin’s Salvation Army Command serve more of our own neighbors who are dealing with such heartbreaking misfortune, they do it better than anyone. Our resources stay here—and no one returns more result for every charitable dollar given.”

– Bob Cole, KOKE FM
