For those who don't use CDX to distribute their new music but wish to be monitored by TRACtion TX, you can now go to our upload center, fill out the necessary information and send your MP3s for fingerprinting here: <https://www.cdxcd.com/fingerprinting-upload-center/>.

Starting this week, the "Bubbling Under" section will be replaced with the following:

SURGING & EMERGING (Page 3)

These positive momentum tracks have not yet debuted in the Top 80 and feature both increased detections and new station adds. Ranked by total chart panel detections, they appear to be building toward a chart debut in the near future.

STEVE HELMS BAND's "Perfection" is this week's #1 *Surging & Emerging*!

Stay tuned,
Joe Kelly

TRACtion only recognizes detections on songs that have been “fingerprinted.” We do our best to obtain and fingerprint all new releases; songs serviced through CDX are encoded automatically. Go to <https://www.cdxcd.com/fingerprinting-upload-center/> for fingerprinting.

Chart Recurrent Methodology

When does a song move to recurrent on the chart? It is one of the more challenging issues we encountered in creating the CDX TRACtion Texas chart system. Rather than relying on subjective editorial decisions, we’ve chosen to automate this process using the weekly chart data as a marker.

We strive to avoid having singles past their prime create a logjam on the chart, because that stifles upward momentum for up-and-coming singles. But we also try to ensure that singles “on the bubble” are not removed prematurely. As long-time chart watchers know, singles often take a while to establish a solid base among early believers at radio before they truly find their legs. Due to any number of reasons, the path to peak chart position rarely includes straight-line, week-over-week spin and/or chart position growth.

On a monitored airplay chart like CDX TRACtion Texas, the reality is that new singles bounce around a bit spin-wise and position-wise, particularly in the lower half of the chart. Even small spin increases and decreases can be magnified as fairly significant up-or-down chart position moves.

With this in mind, the CDX TRACtion Texas recurrent policy grades each chart position on a curve, using an algorithm that considers the chart position and spin history for that song. Newly serviced singles are allowed 20 weeks to chart before being removed from chart consideration. Once a status change is actively being considered by the algorithm, the cumulative amount of spin loss from the single’s previous peak spin count is the trigger. The allowable spin loss varies as a percentage, depending on the chart position.

In addition to making sure that only singles with significant downward movement become recurrent, this methodology also benefits slow-developing singles in several ways. For instance, the allowable spin loss (as a percentage) is very generous at the lower reaches of the chart to accommodate the lower spin counts. Additionally, if a single is at risk of being moved to recurrent status with two consecutive weeks of minor spin loss, it can still return to positive spin growth the following week, which will reset the clock.

Dance Time In Texas with DJ Mike (02/28/20)

THIS WEEK'S FEATURED ARTIST • DONICE MORACE

In an era of country music that focuses more on ball caps and drum loops than cowboy hats and steel guitars, it is refreshing to hear the familiar sounds of what makes country music country. This Beaumont, Texas native found inspiration from fellow "Beaumont Boys" Mark Chesnutt and Tracy Byrd. After becoming a Hometown favorite in South East Texas, He moved to Atlanta, Georgia, where he sang five nights a week at Cowboy's Dance Hall opening for national acts Lonestar, Kenny Chesney, and one of his heroes, Merle Haggard. He continued to grow with the release of his debut CD in 2017, which featured "WD-40 and Duct Tape" which peaked at number 15 on the Texas music charts. He is now quickly rising the charts with the release of his next album "Long Live the Cowboy" where he Unashamedly is putting the cowboy back in country music.
