# GEORGE NAVARRO

## Rising International Country Star Emerges in Texas

George Navarro who hails from Chihuahua, Mexico and now resides in Fort Worth, Texas learned his musical traits from his father who performed with his Grammy Award winning band Caballo Dorado. George was brought up playing and performing Country music, so it is no surprise that George is now making a name for himself in Texas, recently earning nominations for Emerging New Artist and Fiddler of The Year. All of this after George landed in Texas with nothing more than a suitcase and a guitar over 5 years ago. Check out his debut single When She's Drinkin' on country music radio.

## Chart Recurrent Methodology

When does a song move to recurrent on the chart? It is one of the more challenging issues we encountered in creating the CDX TRACtion Texas chart system. Rather than relying on subjective editorial decisions, we’ve chosen to automate this process using the weekly chart data as a marker.

We strive to avoid having singles past their prime create a logjam on the chart, because that stifles upward momentum for up-and-coming singles. But we also try to ensure that singles “on the bubble” are not removed prematurely. As long-time chart watchers know, singles often take a while to establish a solid base among early believers at radio before they truly find their legs. Due to any number of reasons, the path to peak chart position rarely includes straight-line, week-over-week spin and/or chart position growth.

On a monitored airplay chart like CDX TRACtion Texas, the reality is that new singles bounce around a bit spin-wise and position-wise, particularly in the lower half of the chart. Even small spin increases and decreases can be magnified as fairly significant up-or-down chart position moves.

With this in mind, the CDX TRACtion Texas recurrent policy grades each chart position on a curve, using an algorithm that considers the chart position and spin history for that song. Newly serviced singles are allowed 20 weeks to chart before being removed from chart consideration. Once a status change is actively being considered by the algorithm, the cumulative amount of spin loss from the single’s previous peak spin count is the trigger. The allowable spin loss varies as a percentage, depending on the chart position.

In addition to making sure that only singles with significant downward movement become recurrent, this methodology also benefits slow-developing singles in several ways. For instance, the allowable spin loss (as a percentage) is very generous at the lower reaches of the chart to accommodate the lower spin counts. Additionally, if a single is at risk of being moved to recurrent status with two consecutive weeks of minor spin loss, it can still return to positive spin growth the following week, which will reset the clock.

## THIS WEEK'S FEATURED ARTIST • CLAY HOLLIS

Born in the Rio Grande Valley and raised in San Antonio, his Texas and hispanic roots run deep. Cultural and musical traditions define Clay's tried and true brand, his passion for performance developed at a very young age. Friendships with other Texas artists like [Mario Flores](#), [Gabe Garcia](#), and [Jon Wolfe](#) helped his career begin to blossom. When not on stage, or in a college classroom (studying for a degree in the music business,) Clay can be found offshore fishing in his free time as well as volunteering his time to nonprofit organizations, such as 4-H / FFA and Trinity Oaks. With time and karma on his side, classic Texas good looks and a rich, powerful voice, the future is very bright for the young troubadour.

In 2017 he released his self-titled, debut EP in 2017, which featured the single, "Look Who's Hurting Now." Then in 2019 he hit the top of the charts with a tribute to 2 Texas Troubadours named George with a song titled Strait to Jones. Now with his newest release is a song about jumping back in. look for this song to hit the Top 10 soon.

This is [CLAY HOLLIS](#) and [HERE I GO AGAIN](#)
